WHY OUR NEW BEEF & MUSHROOM BLENDED BURGER* IS A BETTER BURGER

Healthier!

Compared to a traditional 100% Beef Burger, a Blended Burger has:

- 25% fewer Calories
- 27% less Total fat
- 33% less Saturated fat
- 33% less Trans fat
- 31% less Cholesterol
- 27% less Sodium

More Sustainable!

Each burger...

- Saves enough water to fill a bathtub.
- Reduces greenhouse gas emissions equal to taking a car off the road for two miles.

Tastier!

88% of UCR students say they loved the taste! (The mushrooms enhance beef’s umami flavor profile — Google it!)

* The Blended Burger is a delicious mix of 70% Angus Beef and 30% Mushrooms.
